Complete Industrial Furnace Equipment

COAL OIL GAS ELECTRICITY

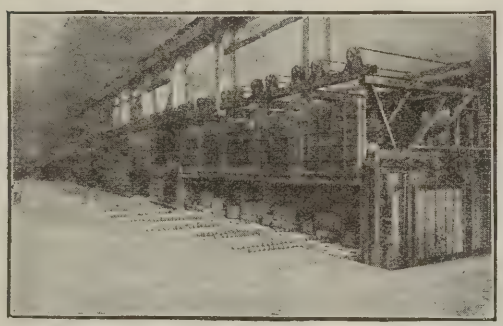
Automatic Bright Annealing Furnace

"FURNACE AND FUEL TO SUIT CONDITIONS"—is our rule governing consideration of new or improvement of existing industrial heating equipment to suit your needs under your plant conditions. Our purpose is to deal with each case on its individual merits, recommending changes in methods, equipment or fuel only when it is apparent that these will be productive of better results.

Automatic Hardening and Tempering Furnace

Let Us Handle Your Heating Problems

We make inspection of plant, devise methods of heating and handling material, furnish complete industrial heating equipment adapted to your particular plant conditions, and guarantee results, using coal, oil, gas or electricity, as your best interests require.



Car-and-Ball Type Annealing and Heat-Treating Furnace

You Never Question the Worthwhile Value of This Line

Those who have learned the lasting satisfaction of buying only nationally-known, dependable merchandise, investigate "Allsteel" before they buy.

Allsteel Filing Cabinet

The GF Allsteel Line of Vertical Files is built to meet the needs of modern business from every standpoint. Practically every conceivable style of record may be filed in this line of Uprights—there is a file for every size of record, from the 5″ x 3″ index card up to legal size papers, 18″ x 14″.

The space-saving feature of steel furniture is carried out to the utmost degree in GF Allsteel Uprights—a saving of 15 to 25 per cent over ordinary files for floor area occupied.

This feature, plus the rigid GF Allsteel construction secured by electric and acetylene welding; a patented, progressive roller suspension which causes the drawers to coast in and out easily and noiselessly whether light or loaded; dust lip at every drawer; thin, easy-running and absolute locking steel follower block, and the handsome, dignified design and finish, give to this line of GF Allsteel Files certain individual merits found in no other line.

Allsteel Desks and Tables

Whether for durability, beauty or convenience, your need can be satisfied in the Allsteel Line of Desks and Tables. Eliminating the center legs gives more foot room—a new comfort feature that every business man will appreciate. Linoleum tops are sanitary, stain and wear-proof, and make a working surface that is pleasing and comfortable in all climates. The cold-drawn bronze binding strips, cast bronze, brush-finished column footings and drawer pulls will never show wear. Privacy is afforded by a lock on all drawers in right-hand pedestal. Locks for other drawers can be furnished.

Allsteel Safes

Allsteel safes are made in two models—the 4000 line Underwriters model with Class B label and 100 line Commercial Model. They are designed and built to meet modern needs for a dependable fireproof safe.

Our Safe Catalog, sent free for the asking, gives you valuable information about safes.

Allsteel Shelving

Built from simple, fundamental units, Allsteel Shelving is quickly installed, easily moved, low in first cost and wears for years and years. It is fire resistive, much stronger than wood shelving and in many cases no more costly.

The above are only a few examples of the comprehensive line of

G. F. Allsteel Office Furniture

Bituminous Producer Gas Plant for Heating a Double Battery of Twenty Asphalt Stills Showing Gas Producers, Burners and Air System

GAS PRODUCERS

The immediate, logical and most economical substitute for fuel oil is producer gas.

The burning of oil for industrial heating operations is wasting one of our most precious natural resources and is expensive as well.

WE MANUFACTURE:
Anthracite Producer Gas Plants
Bituminous Producer Gas Plants (Raw)
Bituminous Producer Gas Plants (Clean)

Consulting engineers on everything that has to do with producer gas and its uses.

Columbia Recording and Indicating Gauges

Recording Gauge

A complete line for pressure, vacuum and draft.
Have extra heavy, long-wearing, non-corrosive movement.
The Recording Gauge has a Time Punch that makes a small hole in disc at exact time button is pressed, thus acting as a time clock. Removable arm makes it easy to renew chart. No danger of straining arm and affecting accuracy of record. Pen is of glass and can be renewed. It cannot corrode nor leak. Day and night records are more easily read than on other makes due to wider area.
Dial on Indicating type is hand calibrated, insuring accuracy. White enameled matt finish eliminates glare and makes reading easy.

Write for Catalog No. N-15.

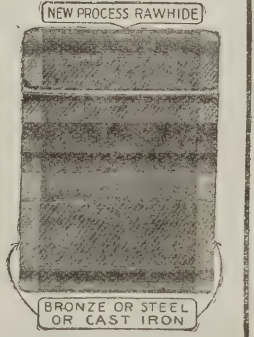
NEW PROCESS RAWHIDE PINIONS

We have the largest variety of types of quiet gears ever offered by any manufacturer and our experience as pioneers in the rawhide gear industry assures that our product is *right* in every way.



LET US SAVE YOU MONEY ON METAL GEARS

Besides rawhide gears we make metal gears in all the popular types and sizes and have every facility for first-class product—experienced operatives, special tools and measuring devices and an exacting inspection system. Work rushed on breakdowns. Send your blueprint or specification for estimate.

THE MEACHEM GEAR CORPORATION

Sole manufacturers of *new process* RAWHIDE GEARS and PINIONS—Still made under the direction of the inventors and the men responsible for every stage in their development.

The Patterson System of Water Heating

for all purposes—domestic and industrial

The Patterson Combined Hot Water Heater and Storage Tank

is for installations where the demand for hot water is not constant. It is made in any desired combination of heating and storage capacities. The stored water absorbs heat from a very small supply of steam.

The Patterson Instantaneous Hot Water Service Heater

is ideal for installations where the demand for hot water is constant—or for use as a hot water generator in a circulating system. It will heat water instantly with a minimum supply of steam.

Patterson Heaters are of extra heavy construction with 'Π' shaped heating sections of seamless, drawn copper tubing. Made for any working pressure and service requiring hot water.

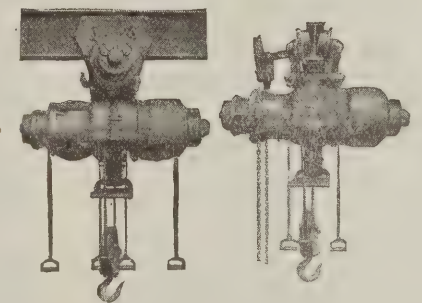
SHEPARD
ELECTRIC CRANES & HOISTS

FOR EVERY LIFTING SERVICE



Shepard cage-controlled hoist on I-beam runway, with bucket attachment.

Shepard Electric Hoists are made in capacities of 1 to 30 tons, designed to meet the demand for a type of electric hoisting equipment equally adaptable to both indoor and outdoor service and requiring no unusual degree of skill for either its care or operation.

The hoisting mechanism is of the "unit-construction" type. Electric motor, gearing, hoisting drum and brake are contained within a heavy iron housing that is not only dirt and moisture proof, but safeguards all operating parts from injury. Another important feature is that the operating gears run in oil.

A few types are shown here—a catalog of the complete line upon request. Our engineering service is at your disposal.

LINK-BELT
ELECTRIC HOISTS
are made in a variety of types and sizes, cage or floor operated, for high or low headroom, for direct or alternating current. A Link-Belt hoist can easily fit into almost any shop conditions. That is one reason for its popularity.

Specify TRIPLEXD—Be Sure of Service

There is no hose exactly like TRIPLEXD. TRIPLEXD construction (the way the metal, rubber and fabric are built into a permanent unit) explains TRIPLEXD performance.

Triplexd Gasoline Hose is the strongest, most flexible and durable gasoline, oil and paint spray hose.

It will give you better service than any other hose at any price.

HYDRAULIC JACKS

Watson-Stillman Hydraulic Jacks have stood the test for over 70 years, and have more than held their own against the many that have tried to compete. This in itself is sufficient proof of their superiority.

We build over 450 sizes and types, inside and outside pump type, high and low lift, small and large tonnage, and jacks for special purposes.

BADGER SELF-EQUALIZING EXPANSION JOINTS

CHANGES in temperature cause material changes in length of steam, air, water, and other pipe lines. To care for these changes safely a Badger Expansion Joint should be installed in a pipe line, otherwise the pipe joints will work loose and leak, or the fittings may become fractured, due to the irresistible strains of expansion and contraction.

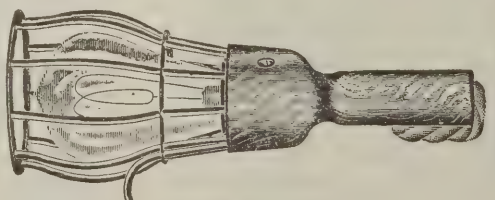
LOXON LAMP GUARD



THE KEY TO SAFETY

CUT DOWN YOUR LAMP BILLS

THOUSANDS of factories, mills and shops cut down their bills for incandescent lamps by using LOXONS. They lock on with a key and absolutely **Prevent Theft and Breakage of Lamp,** as well as **Fire** from a hot or broken lamp next oily waste or other combustibles.

A **LOXON** costs no more than a lamp and saves many. So they pay big dividends.

The NATIONAL PORTABLE LAMP GUARD

Loxon Lamp Guards are made to fit all lamps from 15 Watt up to and including 200 Watt size. A free sample Loxon 25, 40 or 60 Watt size will be sent on request if you will write on your business letter head.

DU PONT FABRIKOID

DU PONT FABRIKOID REG U.S. PAT. OFF.

Fabrikoid is a flexible, impervious material, made with a fabric foundation and a pyroxylin coating to replace leather, cloth, paper and various other materials. It is available in a great variety of colors and grains and in different weights or "qualities" varying from the lightest sheetings, such as are suitable for lining book covers, to extremely heavy and rugged fabrics used for upholstery purposes.

IMPORTANT USES FOR FABRIKOID

Fabrikoid is extensively used as a covering or lining material or both, in the manufacture of: Furniture and Automobile Cushions; Traveling Goods; Novelties; Fancy Leather Goods: Boxes, Cases and Cabinets; Books; Cameras; Auto Tops; Auto Finishing; Ventilation Tubing; etc. It is used to some extent in trimming or finishing thousands of different articles which are in common, everyday use, such as Shoes, Hats, Gloves, Caskets, Harness, Baseballs, Gun Cases, Mats, Runners, Doilies, Clothing, etc.

CRAFTSMAN QUALITY FABRIKOID

This is the highest grade and heaviest quality of Fabrikoid in general use. It has a moleskin back and is especially recommended for all kinds of upholstery work, for Craftsman Auto Tops, for the Craftsman Auto Finish, for making fine Traveling Bags and Suit Cases, and for covering Wardrobe Trunks.

4000 QUALITY FABRIKOID

This is a medium heavy quality with sateen back. Widely used wherever Craftsman Quality is heavier than necessary, as on the backs of furniture. Also widely used for novelties, hat sweats, shoe trimmings and for binding very large books. Other qualities with sateen backs are 4500, 4800, 6000, 6200, 6600.

SHEETING QUALITIES

These include our 1100, 700, 750 and 100 qualities principally. They are used for all types of bookbinding and case covering, for making advertising specialties, lining trunks, etc., etc. All colors and a wide variety of grains are available.

CAR CURTAIN MATERIALS

These are specially designed and made for use in steam and electric passenger coaches. They are dust-proof, non-fading and washable.

VENTUBE

Furnished in the form of tubing and fittings of various diameters for use with blower fans in ventilating mines.

MINEFAB

A covering for concentration tables, used in metal recovery.

PONTOP

A rubber surfaced top and curtain fabric for automobiles and carriages. Supplied in either single or double texture, with black, drab or whipcord back.

DU PONT RUBBER CLOTH

Made in sheetings and ounce goods in weights and widths suitable for all purposes requiring high-grade fabrics of the rubber type.

There are other grades of Fabrikoid not listed above. Tell us what you are interested in and we will submit samples and recommendations.

LINK-BELT

PORTABLE LOADERS

Wherever quantities of loose materials must be loaded into wagons or trucks, with ease and despatch, and at a low cost per ton, the Link-Belt portable loader should prove to be a profitable investment.

We are the pioneers—the recognized leaders—in the development of portable loaders.

ATLAS
Industrial Haulage Equipment

The numerous practical advantages of Atlas Equipment are the result of a thorough understanding of the requirements to be met and the service to be encountered. Atlas equipment is all that good haulage equipment should be.

This Rocker Side Dump Car is a typical Atlas Car It is ruggedly built thruout has low sides to permit easy loading. Like all Atlas equipment this car is built to stand severe strain
